

# PREMIUM MARINE LUBRICATION PRODUCTS

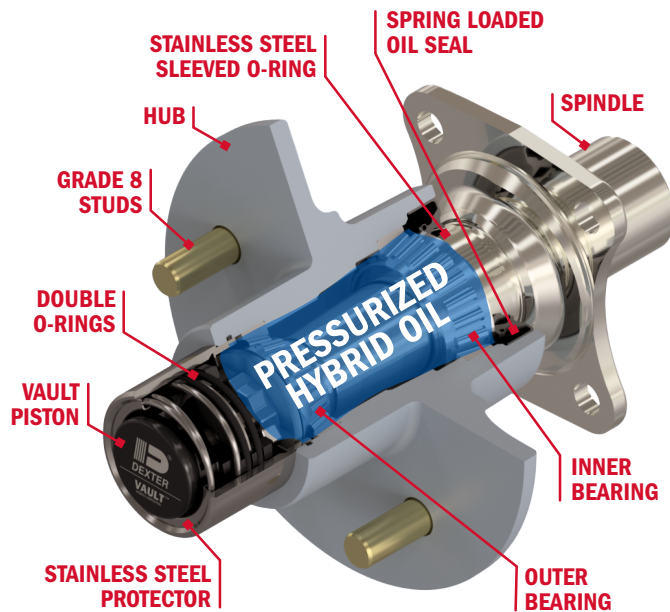

**HIGH  
PERFORMANCE.**

**DESIGNED FOR ALL THE WAYS YOU PLAY &  
BACKED BY DEXTER'S LEGENDARY QUALITY**

- » Proven design engineered especially for marine applications
- » Marine-grade lubrication
- » 6-year limited warranty
- » Strict manufacturing processes
- » Enjoy your boat - not working on your trailer
- » Decades of proven quality
- » ISO 9001:2015 Certified Production Environment

# SYSTEMS MADE FOR THE WATER

Dexter has two marine trailer lubrication options specifically designed for submersion in water. Both systems are maintenance free, allowing bearings to remain lubricated and eliminates the need to grease the bearings. It also helps keep contaminants out of the hub, allowing your trailer to perform at its best.

**VAULT**<sup>®</sup>  
PRESSURIZED HYBRID LUBRICATION

## » FEATURES:

**Stainless steel components**

**Specifically formulated lubricant is continuously being replenished to the bearings**

**Pressurized chamber keeps water out and the lubrication in**

**High-temperature piston**

**No access hole in wheel centers allows for better-looking wheels**

**Reduction of heat and friction provides longer bearing service life**

**VORTEX**<sup>®</sup>  
HIGH-PERFORMANCE LUBRICATION

## » FEATURES:

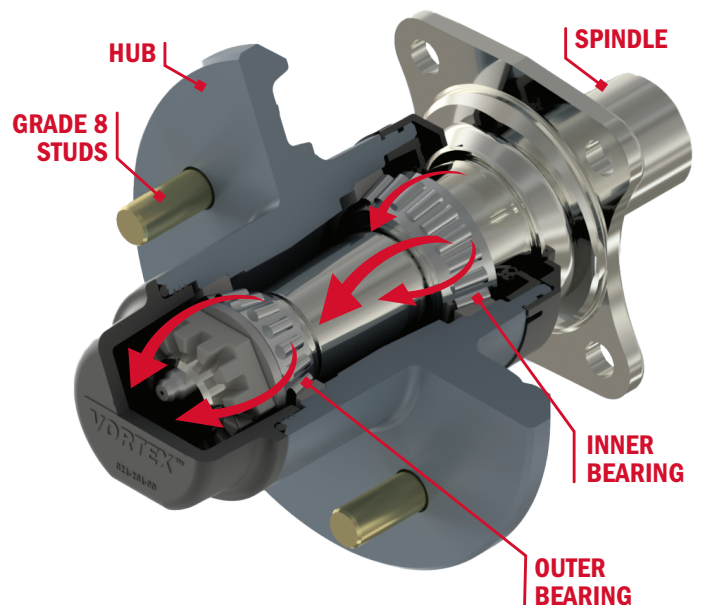

**Stainless steel wear sleeves**

**Marine grade grease maximizes bearing life**

**Rear seals that ride on a stainless steel wear sleeve providing a longer seal life and preventing corrosion**

**Completely sealed lubrication reservoir for maximum lubrication**

**Patented, rugged, threaded removable grease cap allows for easy bearing inspection**
