Subject: Introduction of D30 Axle Series

In keeping with our continual commitment to deliver product innovation and to meet our customers request to provide lighter weight options (in certain applications), Dexter Axle is pleased to announce the introduction of a new 3,000 lb. CSA approved axle series.

Specifications:

- 3,000 lb. leaf spring brake axle
- K-flange
- 10 x 1½" bolt-on electric brakes
- 5 on 4.50 heavy duty hub-drum
- 2¾" tube
- E-Z Lube® option available
- Straight axle only (drop available if demand warrants)
- Minimum overhang – 11.26" Maximum overhang – 18.00"

D30 Axle Features:

- Braking – 10" x 1½" high performance CSA approved bolt-on electric brake assembly
- Reduced Weight – the D30 axle weighs 13 lbs. (10%) less than a D35 axle (based on an 81" hub face)
- Cost Effective – adds value to your trailer at a lower cost than D35 axles
- Warranty Protection – backed by Dexter's two-year limited product warranty

Please contact your Dexter Sales Engineer for additional questions, ordering information, and product availability.
