Subject: Redesign of 10" and 12" Brake Magnet

In keeping with our continual commitment to Dexter's quest of being a vertical integrated company, Dexter Axle is pleased to announce the redesign of our magnet for the 10" x 2¼" and 12" x 2" brakes. These magnets will be produced in our Albion, Indiana facility. This will allow Dexter Axle to have the ability to service our customers in a timely manner as market changes occur.

Current magnet for the
D30, D35, D44, D52, D60, & D70 series.

D30, D35, D44, & D70 series will change
to the new style oval magnet.

D52 & D60 series will change to the new
style elliptical magnet.

The new style magnets are completely interchangeable with the current magnets. As with all magnets, they should be replaced in pairs – both sides of an axle.

Dexter will make a running change in production as the stock of the old style magnet is depleted.
