**Subject: Introduction of #10L Torflex® Axle Series**

In keeping with our continual commitment to deliver product innovation and to meet our customers request to provide lighter weight options (in certain applications), Dexter Axle is pleased to announce the introduction of a new 3,000 lb. CSA approved axle series.

**Specifications:**

- 3,000 lb. Torflex® brake axle
- K-flange
- 10" x 1½" bolt-on electric brakes
- 5 on 4.50 heavy duty hub-drum
- E-Z Lube™ option available
- Minimum overhang – 11.86"      Maximum overhang – 23.60"

**#10L Torflex® Axle Features:**

- Braking – 10" x 1½" high performance CSA approved bolt-on electric brake assembly
- Reduced Weight – the #10L axle weighs 13 lbs. less than a #10 Torflex® axle (based on an 81" hub face)
- Warranty Protection – backed by Dexter's two-year limited product warranty and five-year Torflex® suspension components warranty

Please contact your Dexter Sales Engineer with additional questions, ordering information, and product availability.
