Subject: BrakeRite® Severe Duty (SD) Being Replaced by BrakeRite Plug & Play (P&P)

Please be advised that Dexter has decided to discontinue the BrakeRite Severe Duty model and replace it with the BrakeRite Plug & Play model. This decision was made due to many components integral to this product becoming unavailable. The BrakeRite Plug & Play has the same durability as the SD model while being contained into one unit eliminating the need to mount multiple components unlike the SD models.

<p align="center">Discontinued BrakeRite Severe Duty (K71-881-00) Legacy Titan (4835700)</p>	<p align="center">Replace With BrakeRite Plug & Play (K68-001-11) Legacy Titan (4813102PP)</p>
	

Individual components may not be available in bulk; components may only be available in service part kits. Harness not shown.
