Subject: E-Z Flex® Improvement

Dexter is pleased to announce an improved line of E-Z Flex Heavy Duty Rubber Equalizers. This new offering is powder coated in Dexter red and displays new E-Z Flex badging.

The E-Z Flex Rubber Equalizer system continues to provide enhanced ride quality of leaf spring suspension systems. Utilizing a patented pivot bolt design, cast-iron body, bronze bushings, and lubricating points the E-Z Flex Rubber Equalizer offers much longer product life when compared to other fabricated options. Dexter's isolated rubber puck is designed to reduce the transfer of road shock into the trailer's chassis and valuable contents.

E-Z Flex Features:

- Resilient rubber core isolates and absorbs damaging road shock
- Delivers smoother towing than traditional leaf spring suspensions
- Retrofits to existing leaf spring suspensions by replacing the standard equalizer
- Easy installation requires NO welding or chassis alteration
- Bronze bushings and grease lubrication increase product life
- Does not change the unit ride height
- Available in 33" and 35" spacing for both tandem or triple axle trailers
- Backed by Dexter's standard five-year limited warranty

EQUALIZER LIST

Both zinc and red E-Z Flex part numbers will be available to OEMs purchasing attaching parts kits.

ZINC PART NUMBER	NEW PART NUMBER	DESCRIPTION	AXLE COUNT
013-143-03	013-143-06	HD E-Z FLEX EQUALIZER ASSEMBLY; 33" AXLE SPACING	TANDEM / TRIPLE

013-145-03	013-145-06	HD E-Z FLEX EQUALIZER ASSEMBLY; 33" AXLE SPACING	TRIPLE
013-146-03	013-146-06	HD E-Z FLEX EQUALIZER ASSEMBLY; 35" AXLE SPACING	TRIPLE

PRODUCT BULLETIN #431

AFTERMARKET KIT LIST

Aftermarket kits will transition exclusively to red E-Z Flex equalizers. This change will include a kit part number transition. See the chart below.

OLD KIT NUMBER	NEW KIT NUMBER	DESCRIPTION	AXLE SPACING	AXLE COUNT	BRONZE BUSHINGS INCLUDED	WET BOLTS INCLUDED
K71-654-00	K71-654-06	HD RED E-Z FLEX EQUALIZER	33"	TANDEM	NO	NO
K71-655-00	K71-655-06	HD RED E-Z FLEX EQUALIZER	35"	TANDEM	NO	NO
K71-652-00	K71-652-06	HD RED E-Z FLEX COMPLETE KIT	33"	TANDEM	YES	YES
K71-653-00	K71-653-06	HD RED E-Z FLEX COMPLETE KIT	35"	TANDEM	YES	YES
K71-658-00	K71-658-06	HD RED E-Z FLEX EQUALIZER	33"	TRIPLE	NO	NO
K71-659-00	K71-659-06	HD RED E-Z FLEX EQUALIZER	35"	TRIPLE	NO	NO
K71-656-00	K71-656-06	HD RED E-Z FLEX COMPLETE KIT	33"	TRIPLE	YES	YES
K71-657-00	K71-657-06	HD RED E-Z FLEX COMPLETE KIT	35"	TRIPLE	YES	YES

Note that although aftermarket kits are designed to replace existing equalizer dimensions, installers should be cautious to ensure there is enough clearance to lubricate the equalizer at the pivot bolt. Failure to lubricate the pivot bolt may have an effect on product life.
