Subject: Remote Rangehood Damper Aftermarket Kit (990004-00)

Dexter is proud to announce a new addition to its aftermarket product line, Remote Rangehood Damper Conversion Kit (990004-00). This new kit can be added to existing Dexter P Series and S0721 range hoods to allow for vent opening and closing from inside of the unit.

Range hoods that have the “Remove for Remote Damper Lock Installation” Label inside the housing are already equipped for this kit as pictured below.

The Remote Damper kit needs paired with one of the exterior wall vents listed in the chart below.

PART NUMBER	COLLAR LENGTH	COLOR
V2250-03	9/16"	POLAR WHITE
V2250-05	9/16"	BLACK
V2250-55	1-11/16"	BLACK

This aftermarket kit cannot currently be paired with the new Pinnacle Range Hoods. Please contact your Dexter account manager for additional information and further assistance.
