**Subject: Obsolescence of the F12 (FF) Spindle option on HD Standard Axles**

Due to low customer demand, Dexter HD has decided to discontinue its F12 (FF) spindle option (13,200 lbs. axle capacity) from the heavy duty standard axle product line.

Existing orders will be completed. No new orders will be accepted.

PART NUMBER	DESCRIPTION
101700	F12 (FF) Spindle Bearing Group: Inner Cone HM212049 - Outer Cone 3782

For more information on the heavy duty standard axle product line, please reference the [Standard Axles Flyer \(LIT-243-00\)](#) on the Dexter website.

Please contact your Dexter account manager for additional information and further assistance.
