## Subject: Aftermarket Nev-R-Lube® Bearing Cartridges

Dexter introduces three new Nev-R-Lube® Bearing Cartridge box kits meant to support aftermarket service replacement parts. These kits are designed as a direct replacement for Nev-R-Lube bearings used in D35, D52, D60, D70, and D80 sprung axles as well as #10, #11, #12, and #13 Torflex axles rated from 3,500 lbs – 8,000 lbs.

These kits include the necessary bearing, snap ring, spindle attachment hardware and installation instructions which are indicated below. The new bearing kits make servicing your Nev-R-Lube® bearing product much easier and convenient.

Note: Dexter will no longer sell Nev-R-Lube bearings, snap rings or spindle attachment hardware as loose parts. They will only be available to order as a complete kit.

PART NUMBERS	PART DESCRIPTION	BEARING SIZE
