Subject: Obsolete Tapped Hub and Hub-Drums

Dexter has decided to discontinue the 2,000-3,500 lbs. capacity tapped hub and hub-drum product line as they are no longer the industry standard. Effective immediately, D20 and D35 sprung axles and #8, #9, and #10 Torflex® axles will only be built with studded hubs or hub-drums. Dexter will continue to sell loose tapped products until inventory is exhausted. Please see the obsolescence and conversion lists below.

IMPACTED HUB AND HUB-DRUM PART NUMBERS WITH REPLACEMENT PARTS

OBSOLETE HUB AND HUB-DRUMS	REPLACEMENT	DESCRIPTION
008-091-04	008-091-05	HUB 2.2K 440 TAPPED W/CUPS
