

PRODUCT BULLETIN 460

Date: May 13, 2022

Subject: OBSOLETE 1/2" STUD OPTION FOR 7,200 -7,500 lb. AXLES

Due to low customer demand, Dexter is discontinuing the use of 1/2" wheel studs on 7,200 -7,500 lb. axles using 008-393-09 and 008-393-10 hub-drums. This product change will affect all axle orders for the following axle models: D72, S72, D75, #12V and S12V.

Effective immediately the 008-393-09 and 008-393-10 hub-drums used to support the 12-1/4" x 2-1/2" brake size are being obsoleted and will no longer be available. Moving forward Dexter will continue to support product in the field with 9/16" and 5/8" wheel studs.

HUB-DRUMS AFFECTED:

OBSOLETE P/N	REPLACING P/N	OBSOLETE DESCRIPTION
008-393-09	008-393-03	H-D 8K 865 1/2 OIL 4.75" PILOT CUPS & STUDS
008-393-10	008-393-04	H-D 8K 865 1/2 GRS 4.75" PILOT CUPS & STUDS

Note: When replacing a 1/2" hub-drum with the 9/16" version, customers should verify wheel compatibility as well as proper fastener torque prior to installation.

Please contact your Dexter account manager for additional information and further assistance.
