

PRODUCT BULLETIN #478

Date: March 17, 2023

Subject: Overhang Measurement Clarification for use with Dex-Treme™ D160 axles

Dexter is clarifying the maximum overhang specifications for DexAir™ outlined in product bulletin #466. The table below represents the correct DexAir overhang for use with Dex-Treme D160 axles.

OVERHANG SPECIFICATIONS:

SUSPENSION	MIN. OVERHANG	MAX. OVERHANG
HDSS	28.12" (HF)	32.12 (HF)
	29.00" (TW)	33.00 (TW)
DexAir™	24.50 (HF)	24.87 (HF)
	25.38 (TW)	25.75 (TW)
Single wheels use hub face (HF) measurements.		
Dual wheels use track width (TW) for measurements.
