## 4" DROP SPINDLE FOR D80N AXLES

July 29, 2024

Dexter is excited to announce a new 4" drop spindle option for the D80N axle model. This option allows for a lower ride height while maximizing deck width with a 15.75" minimum overhang. The spindle is forged with an integral brake flange machined into the unitized design for maximum braking performance. Additional product offering information is below.

### D80N WITH 4" DROP PRODUCT SPECIFICATIONS:

- 3.50" x .25" axle tubing
- Underslung configuration
- Standard grease, E-Z Lube®, and oil bath lubrication options
- Brakes, leaf springs, and wheel mounting options will remain the same as the D80N.

AXLE MODELS	CAPACITY	MINIMUM OVERHANG	MAXIMUM OVERHANG
D80N - 4" Drop	8,000 lbs.	15.75"	19.00"
